Twitter and Tear Gas Zeynep Tufekci,2017-05-16 A firsthand account and incisive analysis of modern protest, revealing internet-fueled social movements' greatest strengths and frequent challenges To understand a thwarted Turkish coup, an anti-Wall Street encampment, and a packed Tahrir Square, we must first comprehend the power and the weaknesses of using new technologies to mobilize large numbers of people. An incisive observer, writer, and participant in today's social movements, Zeynep Tufekci explains in this accessible and compelling book the nuanced trajectories of modern protests—how they form, how they operate differently from past protests, and why they have difficulty persisting in their long-term quests for change. Tufekci speaks from direct experience, combining on-the-ground interviews with insightful analysis. She describes how the internet helped the Zapatista uprisings in Mexico, the necessity of remote Twitter users to organize medical supplies during Arab Spring, the refusal to use bullhorns in the Occupy Movement that started in New York, and the empowering effect of tear gas in Istanbul's Gezi Park. These details from life inside social movements complete a moving investigation of authority, technology, and culture—and offer essential insights into the future of governance.

Funny Pictures Daniel Ira Goldmark, Charles Keil, 2011-07-21 This collection of essays explores the link between comedy and animation in studio-era cartoons, from filmdom's earliest days through the twentieth century. Written by a who's who of animation authorities, Funny Pictures offers a stimulating range of views on why animation became associated with comedy so early and so indelibly, and illustrates how animation and humor came together at a pivotal stage in the development of the motion picture industry. To examine some of the central assumptions about comedy and cartoons and to explore the key factors that promoted their fusion, the book analyzes many of the key filmic texts from the studio years that exemplify animated comedy. Funny Pictures also looks ahead to show how this vital American entertainment tradition still thrives today in works ranging from The Simpsons to the output of Pixar.

Denslow's Humpty Dumpty [eBook - NC Digital Library] William Wallace Denslow, 2010

Denslow's Three Bears William Wallace Denslow, 2006

Denslow's Mother Goose William Wallace Denslow, 2008-02 William Wallace Denslow (1856-1915) - usually credited as W. W. Denslow - was an illustrator and caricaturist remembered for his work in collaboration with author L. Frank Baum, especially his illustrations of The Wonderful Wizard of Oz. Denslow was an editorial cartoonist with a strong interest in politics, which has fueled political interpretations of The Wonderful Wizard of Oz. Besides The Wonderful Wizard of Oz, Denslow also illustrated Baum's books By the Candelabra's Glare, Father Goose: His Book, and Dot and Tot of Merryland. Baum and Denslow held the copyrights to most of these works jointly. After Denslow quarreled with Baum over royalty shares from the 1902 stage adaptation of The Wizard of Oz, for which Baum wrote the script and Denslow designed the sets and costumes, Baum determined not to work with him again. The royalties from the print and stage versions of The Wizard of Oz were sufficient to allow Denslow to purchase an island off the coast of Bermuda, and crown himself King Denslow I. Amongst his other works is Denslow's Mother Goose (1902).

Films that Sell Patrick Vonderau, Bo Florin, Nico De Klerk, 2019-07-25 While moving image advertising has been around us, everywhere, for at least a century, the topic has tended to be overlooked by cinema studies. This far-reaching new collection makes an incisive contribution to a new field of study, by exploring the history, theory and practice of moving image advertising, and emphasising the dynamic and lasting relationships between print, film, broadcasting and advertising

cultures. In chapters written by an international ensemble of leading scholars and archivists, the book covers a variety of materials from pre-show advertising films to lantern slides and sponsored 'educations'. With case studies of advertising campaigns and archival collections from a range of different countries, and giving consideration to the problems that advertising materials pose for preservation and presentation, this rich and expansive text testifies to the need for a new approach to this burgeoning subject that looks beyond the mere study of promotional film.

The Routledge Companion to Medieval Iconography Colum Hourihane, 2016-12-19 Sometimes enjoying considerable favor, sometimes less, iconography has been an essential element in medieval art historical studies since the beginning of the discipline. Some of the greatest art historians – including Mâle, Warburg, Panofsky, Morey, and Schapiro – have devoted their lives to understanding and structuring what exactly the subject matter of a work of medieval art can tell. Over the last thirty or so years, scholarship has seen the meaning and methodologies of the term considerably broadened. This companion

provides a state-of-the-art assessment of the influence of the foremost iconographers, as well as the methodologies employed and themes that underpin the discipline. The first section focuses on influential thinkers in the field, while the second covers some of the best-known methodologies; the third, and largest section, looks at some of the major themes in medieval art. Taken together, the three sections include thirty-eight chapters, each of which deals with an individual topic. An introduction, historiographical evaluation, and bibliography accompany the individual essays. The authors are recognized experts in the field, and each essay includes original analyses and/or case studies which will hopefully open the field for future research.
