**Rendering** Kyle May,Julia van den Hout,2012-01-01 As information is distributed and consumed at an increasingly rapid pace, one of the most effective (or at least pervasive) ways to communicate architectural ideas is through renderings. Typically a perspectival image that can be understood without any knowledge of architectural drawing conventions, the rendering derives power from its accessibility to a wide audience-hence its crucial role in design competitions, client presentations, press releases, and other such public forums. While these architectural visualizations are certainly nothing new, advances in software and hardware have enabled renderings to be made faster and more realistic than ever before. This presents both an opportunity and a challenge. On the one hand, design concepts can now be tested and conveyed with an unprecedented degree of visual accuracy. Conversely, whether through omission, extreme dramatization, or even intentional fakery, architects now have the ability to realistically depict the impossible. Furthermore, both clients and public are beginning to expect photorealistic imagery even at the earliest stages of a project, when supposed 'realism' can oftentimes belie the fundamentally speculative nature of design. Given the importance of these images in mediating between architects and the people they ultimately serve, CLOG will critically assess the state of renderings today. The Cobrasnake Mark Hunter,2022-06-07 A love letter to a time before Instagram and the legendary party scenes of the 2000s that brought together the new millennium's rising stars of pop culture. Under the moniker the Cobrasnake, the photographer Mark Hunter captured the party scenes of Los Angeles and New York during the hipster-glam heyday of the 2000s—and in doing so defined the look of a generation. Armed with just a Polaroid and a primitive website, Cobrasnake captured pioneers of youth culture from Kanye West and Steve Aoki to Jeremy Scott, Katy Perry, and Virgil Abloh—icons of the indie pop world in the making. Intimately connected with the people around him and keyed-in to the edgier fringes of the fashion, music, and art worlds, Hunter photographed influencers before they were influencers, in the wild and at play from the streets of LA to NYC and beyond. Collected here for the first time are more than three hundred of Cobrasnake's favorite images alongside ephemera, from concert tickets and backstage passes to outtakes and unseen photographs from his many adventures. These photographs are records of the last generation of partiers to predate the livestreaming of culture afforded by today's social media—capturing the energy and vibrancy of a time before Instagram.

Rock 'n' Roll Billboards of the Sunset Strip Robert Landau,2016-09-30 The Sunset Strip, circa 1967. What was happening then is now absolutely clear. Rock 'n' roll and the kids who lived it were coming of age - right there on The Strip. And, as if to define the era, a few independent minds in the music industry posted giant, temporary monuments that said it all. Billboards. Bigger than life. Hand-painted homages to rock. In Rock 'n' Roll Billboards of the Sunset Strip, Robert Landau showcases these signs of the time, a time when rock was the most important music ever recorded, when youth, politics, and art merged to turn counterculture into mainstream culture.

**Both Sides of Sunset** Jane Brown, Marla Hamburg Kennedy, 2015 Los Angeles is a city of dualities--sunshine and noir,

coastline beaches and urban grit, natural beauty and suburban sprawl, the obvious and the hidden. Both Sides of Sunset: Photographing Los Angeles reveals these dualities and more, in images captured by master photographers such as Bruce Davidson, Lee Friedlander, Daido Moriyama, Julius Shulman and Garry Winogrand, as well as many younger artists, among them Matthew Brandt, Katy Grannan, Alex Israel, Lise Sarfati and Ed Templeton, just to name a few. Taken together, these individual views by more than 130 artists form a collective vision of a place where myth and reality are often indistinguishable. Spinning off the highly acclaimed Looking at Los Angeles (Metropolis Books, 2005), Both Sides of Sunset presents an updated and equally unromantic vision of this beloved and scorned metropolis. In the years since the first book was published, the artistic landscape of Los Angeles has flourished and evolved. The extraordinary Getty Museum project Pacific Standard Time: Art in L.A. 1945-1980 focused global attention on the city's artistic heritage, and this interest has only continued to grow. Both Sides of Sunset showcases many of the artists featured in the original book--such as Lewis Baltz, Catherine Opie, Stephen Shore and James Welling--but also incorporates new images that portray a city that is at once unhinged and driven by irrepressible exuberance. Proceeds from the sale of the book will benefit Inner-City Arts--an oasis of learning, achievement and creativity in the heart of Los Angeles' Skid Row that brings arts education to elementary, middle and high school students.

The Meaning in the Making Sean Tucker, 2021-08-10

## **Become inspired, find your voice, and create work that matters.**

Why are human beings driven to make?

It's as if we collectively intuited, long before science gave us the language, that the universe bends toward entropy, and every act of creation on our part is an act of defiance in the face of that evolving disorder.

When we pick up a paintbrush, or compose elements through our camera viewfinders, or press fingers into wet clay to wrestle form from a shapeless lump, we are bending things back toward Order and wrestling them from Chaos.

But making things is often not enough.

We also want the things we make to be filled with meaning. We're each trying to describe what we know about life, to create a collective sense of "safety in numbers." When we reach the end of our traditional descriptive powers, it's time to weave collective meaning from poetry, painting, writing, dancing, photographing, filmmaking, storytelling, singing, animating,

designing, performing, carving, sculpting, and a million other ways we daily create Order out of the Chaos and share it with each other for comfort.

On this journey we need a creative philosophy which will help us find our voice, discover our message, deal with the responses to our work, maintain inspiration, and stay mentally healthy and motivated creators as we strive to find “the meaning in the making.”

*The Place That Didn't Exist* Mark Watson,2016-07 The dazzling novel from acclaimed author and stand-up comedian Mark Watson.Dubai is a good place to win. And a really, really bad place to lose ...Junior advertising creative Tim Callaghan can hardly believe his luck when his idea for a commercial is commissioned by an international charity. He's flown out to Dubai to supervise the project and is immediately enticed by the city - a futuristic environment unlike anywhere he's ever been before. The first few days go by in a blur: Tim meets the heads of the charity and the production team; a movie star flies in to appear in the advert; and The Village, the five-star resort in which they're staying, offers an almost uncanny level of

customer service. Then filming begins, a crew member dies, and things get complicated . . . Beautiful, seductive, brilliantly managed and a little bit frightening, Dubai itself is like an advert, and takes on an increasingly unsettling atmosphere as the murder investigation begins. The longer Tim stays, the more surreal everything seems: the mysterious death, the ad campaign, even the charity. As Tim's assumptions evaporate one by one in the heat of the desert city, all that's certain is that he needs to get out before it's too late. PRAISE FOR MARK WATSON Funny, sharply observed and unexpectedly moving The Times Hugely recommended.
